

Science Rendezvous Victoria 2024

Camosun Location

Science Rendezvous is a free one-day STEM festival for science enthusiasts of all ages! Join us on Saturday, May 11th from 10 a.m. – 3 p.m. to engage in science, technology, engineering and math with world-renowned researchers.

Centre for Health & Wellness (CHW)

Kids Zone! – CHW Lobby

Explore STEM – both the unplugged and digital versions

Giant Floor Map – CHW Lobby

Explore the world you know on this giant map of waterways.

Ultrasound Showcase – CHW 105*

Live ultrasound demonstration with a tour of Camosun College's Teaching Clinic. *Sign up for tours at the Welcome Table in the CHW Atrium.

The World of Medical Marvels – Teaching Clinic

Embark on an exploration through the realm of medical wonders and become a lab sleuth, uncovering mysteries and marvels alike.

10 a.m. – 12 p.m.

X-citing X-rays – CHW 134/135/137

Discover the science behind medical x-rays and even create a few yourself!

10 a.m. – 12 p.m.

B.C.'s Fabulous Fossils – CHW 233

Fossils tell a million stories. Come explore a hands-on fossil display and play "Is This a Fossil?"

10 a.m. – 12 p.m.

Skeletal Secrets – CHW 234

You've found a bone...is it human? Is it a crime? Come find out how we can tell and practice your crime fighting skills!

Biology: Explore the Senses! – CHW 235

Test your sensory perception and learn about the sensory organs and receptors that allow us to gather information about the world around us.

Code Quest – CHW 341

Dive into the mechanical coding puzzles of Turing Tumble or unleash the creative potential of programming with Edison Bots.

IPTT Paddles – CHW 347

Come learn more about the Indigenous Peoples in Trades Training program and view some of their work.

Tripping the Light Fantastic – CHW 348

Explore interactive physics demonstrations that focus on light, electricity, magnetism and waves.

Kinesiology Kick Start – Outside CHW

The study of human movement, fitness and sport is our game! Try out some of the concepts we use in exercise science.

10 a.m. – 12 p.m.

Greenhouse

Planting and Soil Biodiversity – Greenhouse

Come plant sunflower seedlings or pea shoots and analyze the biodiversity of the soil.

12 p.m. – 3 p.m.

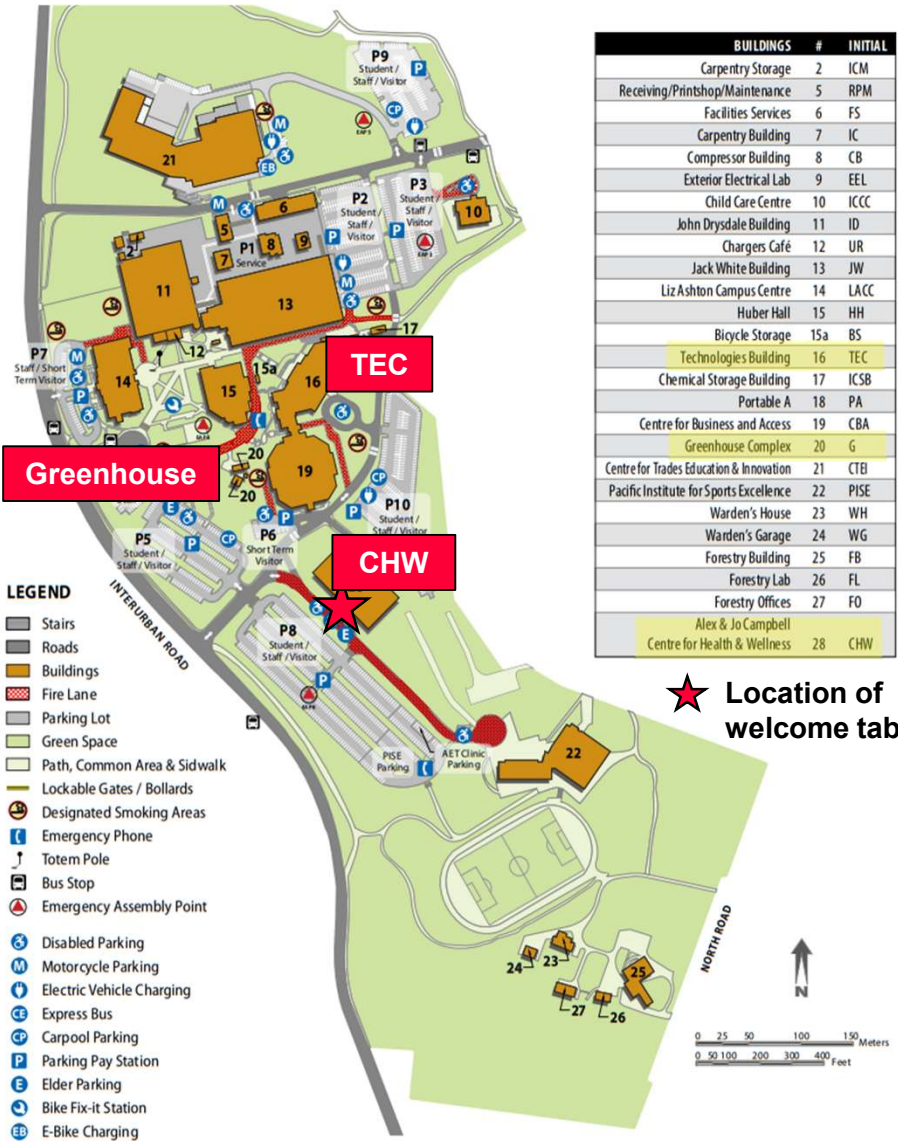

Technologies Building

Civil Engineering Playground – TEC 110

Come enjoy a range of activities related to civil engineering. Race a boat, simulate an earthquake, or design a housing development!

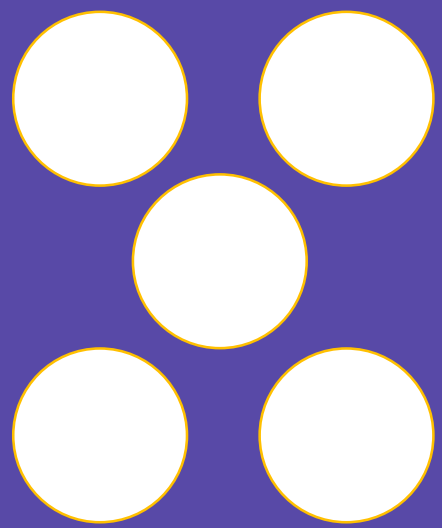

Camosun Interurban Map

Prize Draw!

Visit 5 different activities, get a stamp, and enter for a chance to win a science prize pack, valued at \$75+!

Prizes have been provided by Two Otters, Dino Lab, Swan Lake Nature Sanctuary, Victoria Bug Zoo, Shaw Centre for the Salish Sea, UVic and Camosun.

Enter the draw!
